

CALVIUM^o

CLIENTS TESTIMONIALS

Here at Calvium, we value co creation and enjoy working closely with our clients at each stage of the app development process. The result is often a fantastic working relationship and long established friendships.

The following is a selection of our previous customers and their experiences of working with us...

“Working with Calvium to create the immersive soundscape that is Guardian Streetstories has been just fantastic. We have been able to compose, lay out, test and refine over 70 original recordings to create this app within a couple of months”

Francesca Panetta - Guardian Special Projects Editor
The Guardian

“Jo and the team delivered exactly what we were looking for, even if it was something we hadn’t thought of before: their advice was at all times excellent and they solved any problem we encountered easily. We’re delighted with our City Visitor Trail app, and we trust Calvium absolutely to do a good job.”

Stuart Millar - Visitor Marketing Executive,
City of London Corporation

“We had been thinking about making an app for ages but didn’t know how to do it and never had the time. Calvium are brilliant, they helped us to think creatively and practically about what we wanted to make, opening doors for us and creating test versions right from the first day.”

Charlotte Bond - General Manager
Kneehigh Theatre

“We have been very delighted to work with Calvium. From start to finish we have felt safe knowing that we collaborated with professional and experienced people eager to have our project succeed. The communication has been top notch despite the distance between Copenhagen and Bristol. Calvium was always there to answer our calls and emails no matter how often we asked for assistance. I truly recommend, and have been recommending, working with Calvium.”

Rebecca Abannoraddae

“Bristol based developers Calvium, lead by Jo Reid, really drove this project forward, with their highly professional work ethic, competence and years of experience in the field of new media. It was a joy to work with this company and I learnt a great deal from them about new technologies, GPS activated platforms and digital media. Jo Reid was extremely patient and supportive of me throughout the project, even when I pushed the boundaries of the technology or found it hard to understand the language being used or Calvium’s requirements from me.”

Rachel Lichtenstein, - artist, writer, curator.
